Required Publishing Tasks for Conference Publishers

1. **Copyright transfer:** If IEEE is the copyright holder, all authors publishing in IEEE *Xplore*® must transfer copyright. CEE will contact you with the next steps.
2. **File collection:** PDF eXpress file collection is available for all conferences. Organizers can choose to utilize this function to download submissions that are "Approved for Collection" by authors. This can be done by clicking the zip icon on the IEEE PDF eXpress site.
3. **Instruct authors to validate their papers** using the IEEE PDF eXpress site (see Author Instructions below).
4. **Submit IEEE *Xplore*-compatible PDFs** to CEE. **IMPORTANT:** Any changes made after PDF eXpress conversion (headers, page numbers, watermarks, etc.) may invalidate

Xplore compatibility. Add these elements before creating the PDF.

5. **Include all files in your final submission:** technical papers, copyright page, title page, table of contents, and author index. ***All PDFs*** must be validated through PDF eXpress for IEEE *Xplore* compatibility.
6. **Provide Authors with the instructions below** and link to free templates for MS Word and LaTeX.
