

International Conference on IoT, Electromagnetics, Communication and Sensing

Venue: The Photovoltaic Institute of Île-de-France, Paris
May 3th – 5th, 2027

Organizing Committee Patrons

Chief Patrons

Goutam Chattopadhyay
NASA-Jet Propulsion Laboratory, USA

Satyajit Chakrabarti
IEM, Kolkata, India

General Chair

Chinmoy Saha
IIST, Thiruvananthapuram, India

General Co-Chair

Anthony Ghiotto
University of Bordeaux, France

Convener

Sanghamitra Poddar
IEM, Kolkata, India

Co-Convener

Valentina Palazzi
University of Perugia, Italy

Technical Program Chairs

Gobinda Sen
IEM, Kolkata, India

Sutanu Ghosh
IEM, Kolkata, India

Finance Chair

Malay Gangopadhyay
IEM, Kolkata, India

Publication Chair

Srijita Chakraborty
IEM, Kolkata, India

Shrinjoy Chatterjee
SMS Group, India

About IEMCOMS

The International Conference on IoT, Electromagnetics, Communication and Sensing (IEMCOMS) is envisioned as a multidisciplinary annual symposium that brings together academia, industry professionals, researchers, and students on a common platform to explore emerging trends in connected technologies and advanced electromagnetic and communication systems. The conference emphasizes affordability and accessibility while maintaining a high standard of scientific excellence, thereby creating an inclusive global forum for knowledge exchange. This conference will also provide a international stage to promote an intense dialogue between academia and industry to bridge the gap between academic research, industry initiatives, and governmental policies. This is fostered through panel discussions, keynotes, invited talks and industry exhibits where academia is exposed to state-of-practice and results from latest experimental works.

CALL FOR PAPER

Authors are invited to submit their original research work in the form of a technical paper (3–4 pages) in the following areas (but not limited to). Detailed instructions on submission can be found on our conference website.

- Track-I :** RF & Microwave Components, Circuits and Systems
- Track-II :** mmWave & THz Technologies
- Track-III :** Antenna Design & Propagation
- Track-IV :** 6G & Beyond Wireless Systems
- Track-V :** AI/ML in RF and Communication Systems
- Track-VI :** Microwave Materials & Metamaterials, BioRF
- Track-VII :** Wireless Power Transfer and Energy Harvesting
- Track-VIII :** IoT, and Emerging Technologies
- Track-IX :** Sensing Applications
- Track-X :** Communication & Sensing For Space and Defence

IMPORTANT DATES

- ✓ **Submission Starts :** 02 November, 2026
- ✓ **Submission Ends :** 15 January, 2027
- ✓ **Notification of Acceptance :** 1 March, 2027
- ✓ **Camera Ready Paper Submission :** 20 March 2027
